Berta's Kindervilla

... a milestone for childcare!

„Berta's Kindervilla“ is equipped with a large play space, snow-adventure room, large kids' stage, children's ski storage area (bookable daily), the Berta shop and a terrace for parents.

Bambini Ski course / 3 years

Start at the area marked green!

General information:

Because of the physical exercise, the altitude and the long periods of concentration, 3-year-olds are soon exhausted and need to rest in the afternoon. At this age, kids are simply not ready for an all-day ski course, and it would destroy the fun of skiing to try. This is why the Bambini toddler programme (max. 5 children) is offered in the mornings between 10:00 a.m. and noon.

full day supervision:

We offer full-day programmes with snow adventure. Lunch-time supervision including lunch can be booked extra.

Homesickness:

With empathy, games and lots of variation, we are doing our very best to make the separation from mum and dad as easy as possible. Sometimes, it needs a second try for it to work. Please be understanding if your child is not yet ready to stay with the group.

Learning goal:

After 4 – 5 days, the kids snowplough down a lightly slanting slope. The last day, all kids participate in the Bambini ski race.

Tip:

Visit our information event “Bambiniland Hello” on Sundays 10:30 a.m., at Bertas Kindervilla in Berta’s Kinderland (please bring your skiing gear).

children Ski course / 4 years

Start at the area marked blue!

General information:

The children participate in the all-day course for 4-year-olds! We kindly ask parents to trust our pedagogic expertise and not register 4-year-olds in the older groups. For example, 4-year-olds need approximately 3 to 4 days to properly learn how the snow-plough, whereas a 5-year-old only needs 1 to 2 days. Dividing the groups correctly has a great impact on the kids' motivation and learning success.

Homesickness:

Separation anxiety can be a problem also in this group. Some children are not used to wait with the group or to be a part of group instruction. It is therefore important to prepare the children of what to expect. Most of the time there are no problems at all, and the children learn the snowplough within a few days. We also offer the introduction ticket for the 4-year-olds' first skiing day.

Results & success

After approx. 5 days, the children make nice turns along Berta's learning trail, and some even manage the Ladis slope. All 4-year-olds participate in the final ski race by the magic carpet lift.

please note:

If the 4-hour-course is too exhausting for your 4-year-old child, you can switch to the Bambini programme in combination with Berta's snow adventure. (price differences possible)

children / 5+6 years

Start at the area marked red

General information:

5- and 6-year-old children fit very well together both in coordination and in endurance. In addition, the children are in a great learning age, only in exceptional cases, it is difficult to start.

We also offer the introduction ticket for the 5-year and 6-year-olds' first skiing day.

Results & success:

After approximately 5 days, the children master the Poschi and Ladis slopes as well as riding the button lift. All children participate in the last-day ski race by the Poschi lift.

Gear for 3 to 6-year-olds

The right equipment is the first step to success!

Children who are freezing or sweating too much are not happy.

- Adapt clothing to weather
- The skis should not be taller than chest level
- Proper ski boots – no plain winter boots
- Ski or sunglasses, sunscreen – always, also when cloudy!

Berta's Kindergarten

dear parents,
the Ski School Fiss-Ladis offers all-day care for children as young as 3 months at the kindergarten Fiss or Ladis.

Games, fun and new Friends:

At the children's playground, we play in the snow, make little excursions with the lifts and get to make new friends. Visits to the farm or one of the playgrounds are also on the programme. Aside from lots of fun and games outdoors, we also have great facilities to play indoors.
